## **Speaker Presentations/Bios - NB Dental Society CE Day, March 30, 2019**

### **9 am – 10:15 am “Antimicrobial Stewardship Among Oral Health Professionals”**

#### **Dr. Jason Vanstone, B.Sc., Ph.D., Casey Phillips, BSP, PharmD**

Jason grew up in Regina and completed his B.Sc. in Biology at the University of Regina in 2006. He then completed his Ph.D. in Cellular and Molecular Medicine at the University of Ottawa in 2013 where his research focused on regenerative medicine. Following a two-year post-doctoral fellowship in rare disease research at the Children’s Hospital of Eastern Ontario, Jason returned home to Regina in 2015. In 2016, he began working with the Regina Qu’Appelle Health Region (now Saskatchewan Health Authority) and is currently the Research Scientist for Clinical Appropriateness.

#### **Casey Phillips, BSP, PharmD**

Casey is the Lead Pharmacist for the Regina Antimicrobial Stewardship Program. Originally from Regina, he began his healthcare career in Emergency Medical Services in Saskatchewan. From there, he studied Pharmacy at the University of Saskatchewan in 2005 and worked in both community and hospital settings. Building on the knowledge and skills from clinical work, he entered the Doctorate of Pharmacy Program at the University of Toronto in 2010. His current work focuses on Antimicrobial Stewardship Initiatives in Acute and Primary Care settings, including patient care, education, and research.

### **10:30 am – 11:45 am “Cannabis 101: What we know so far, and the long road ahead”**

#### **Robert B Laprairie, PhD**

Dr. Robert Laprairie was born and raised in Saskatoon, SK. He holds a BSc (Biochem) from the U of S (’10), MSc (Neuroscience & Pharmacology, Dalhousie, ’12), and PhD (Pharmacology, Dalhousie, ’16). He completed a postdoctoral fellowship at The Scripps Research Institute and is now back home in Saskatoon as Assistant Professor and CIHR-GlaxoSmithKline Research Chair in Drug Discovery and Development in the College of Pharmacy and Nutrition. Robert’s research focuses on understanding the molecular pharmacology of the endocannabinoid system – specifically the type 1 cannabinoid receptor (CB1R) – and applying this research to neurodegenerative disease. He has published more than 30 papers in this area. His research utilizes molecular biology, cell culture, and animal models to study CB1R in an attempt to further our understanding of Cannabis as a medicine, and lead the development of new drug compounds.

### **12:30pm - 1:45pm “Isn’t it too early for my child to get braces? What to look for and discuss at an early age”**

#### **Dr. Kristopher Currie, B.Sc., D.M.D., M.Sc., F.R.C.D. (C)**

Dr. Kristopher Scott Currie was born and raised in Saskatoon, Saskatchewan where he obtained a Bachelor of Science in physiology, followed by his Doctor of Dental Medicine from the University of Saskatchewan in 2012. Kris practiced general dentistry for 2 years in Saskatoon then went back to graduate school at the University of Alberta where he received a Masters of Science in Orthodontics. Kris became a fellow of the Royal College of Dental Surgeons in 2017 after which he joined Dr Lalli’s orthodontic practice in Saskatoon. Kris is married to his high school sweetheart Maeva and they have two beautiful little girls; Mila who is 3 and Andie who will be 1 in April. Kris enjoys travelling, spending time with his family and staying active. Dr. Lalli has been travelling to North Battleford for a number of years and Kris looks forward to continuing to provide service to the area.

### **2 pm – 3:15pm "Update - Infection Prevention and Control in the Oral Health Care Facility 2018"**

#### **Dwight Krauss, Saskatchewan Dental Therapist**

Dwight Krauss is a 1980 graduate of the National School of Dental Therapy, Fort Smith, NWT. Upon graduation he provided dental care in Waglisla, BC from 1980 to 1982. He then provided dental care in Goodfish Lake, Saddle Lake and Kehewin, Alta. from 1982 to 1986.

From 1986 to June 2011 Dwight was an instructor at the National School of Dental Therapy, Prince Albert, Sask. During his tenure at NSDT he served as Academic Director for ten years, Director for 4 years and at various times taught Dental Morphology, Infection Control, Head & Neck Anatomy, Treatment Planning, Administration and various units of Restorative Dentistry.

From November 2011 to December 2012 he provided dental care, part-time, for Prince Albert Grand Council in Shaol Lake Sk and was employed, part-time, by Prince Albert Parkland Public Health as a Dental Health Educator. Since December 2012 he has been employed, full-time, by Prince Albert Parkland Health Region as a Dental Health Educator.

Dwight has been a member of the Sask Oral Health Care Professions Inter-professional committee that has been tasked with revising the "Infection Prevention and Control in the Oral Health Care Facility 2013" guidelines over the last 1-2 years.
